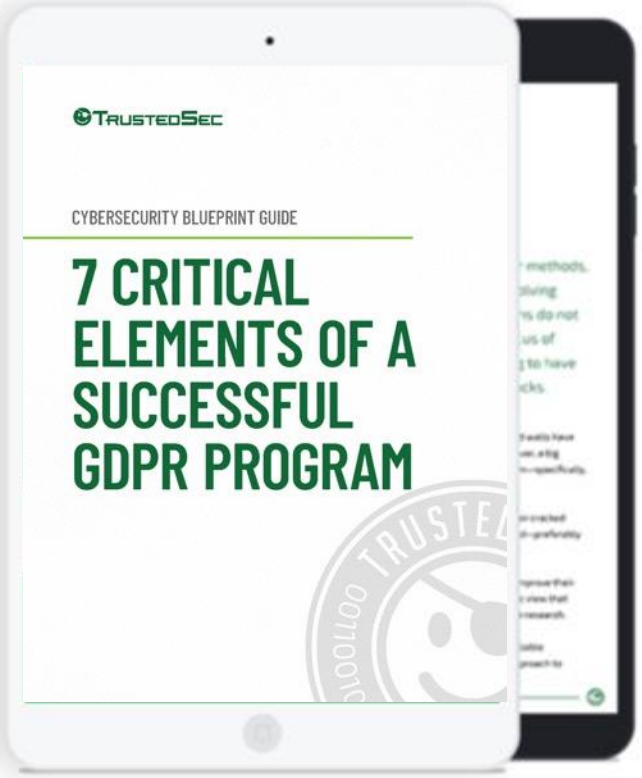
Following this webinar, you'll receive our new GDPR blueprint guide:

7 Critical Elements of a Successful GDPR Program



With almost three years since official enforcement of the European Union General Data Protection Regulation (EU GDPR) began, and with the recent invalidation of Privacy Shield, we've seen a need for organizations to refresh their GDPR programs.

Whether you are new to GDPR or have been practicing it for years, we hope this summary can help guide your GDPR implementations and internal assessments.

TrustedSec

LIVE WEBINAR

PenTesting Fails:

What to do When You Make (a Lot of) Mistakes in InfoSec

Best-in-class consultants meet full-service security offerings

Security Testing + Analysis

- Penetration Testing
- Red/Blue/Purple Team
- Web/Mobile Testing
- IoT/Hardware Assessment

Program Assessment + Compliance

- Business Risk Assessment
- Security Program Assessment
- PCI Assessment

Security Program Management

- Program Building

- Virtual CISO

Remediation Assistance + Training

- Remediation Services
- Security Training and Education

Incident Response + Forensics

- Incident Response
- Threat Hunting
- Tabletop Exercises
- Malware Analysis

How TrustedSec is different

Engagements are led by **senior-level consultants**

We back them with a **dedicated attack research team**

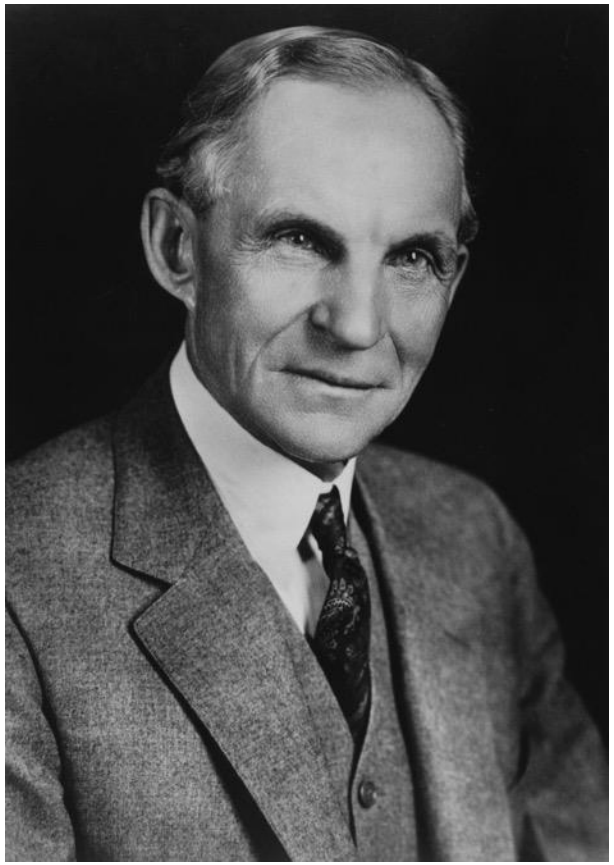
We hire industry **leaders** and tool **creators**

Adam Compton

Principal Security Consultant

Over my career I have been a programmer, researcher, instructor, professional pen tester, father, husband, and farmer.

I have nearly two decades of experience in the Information Security field performing programming, network security, incident response, security assessment, and penetration testing.



“The only real mistake is the one from which we learn nothing.”

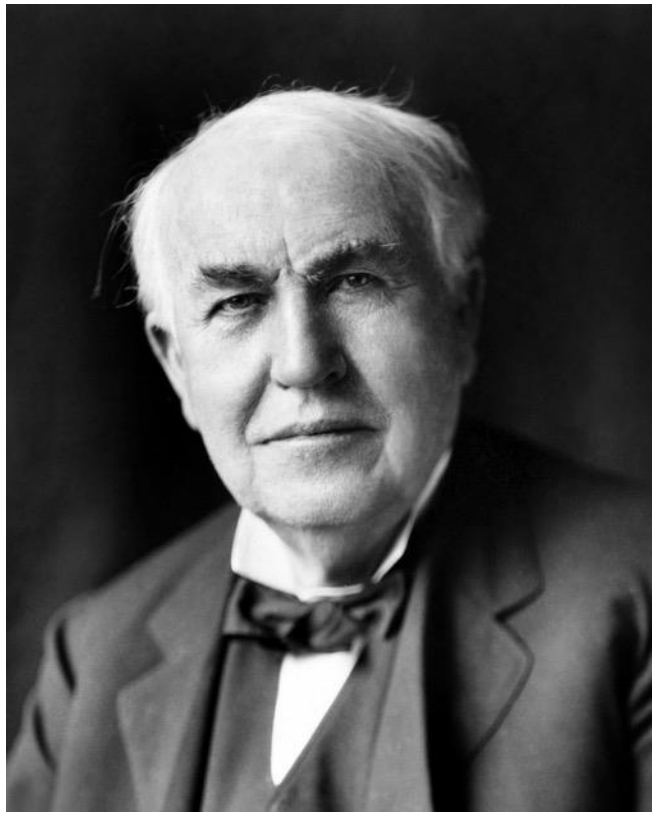
- Henry Ford

Watch those octets….

- /bin/sh truncated commands after a certain point.
- AAA.BBB.237.0/24 != AAA.BBB.2
- Nmap used to auto appent implied CIDR notation
  - AAA.BBB.2 => AAA.BBB.2.0/24
  - AAA.BBB.2.0/24 != AAA.BBB.237.0/24

“I have not failed. I've just found 10,000 ways that won't work.”

- Thomas Edison



“You build on failure. You use it as a stepping stone. Close the door on the past. You don't try to forget the mistakes, but you don't dwell on it. You don't let it have any of your energy, or any of your time, or any of your space.”

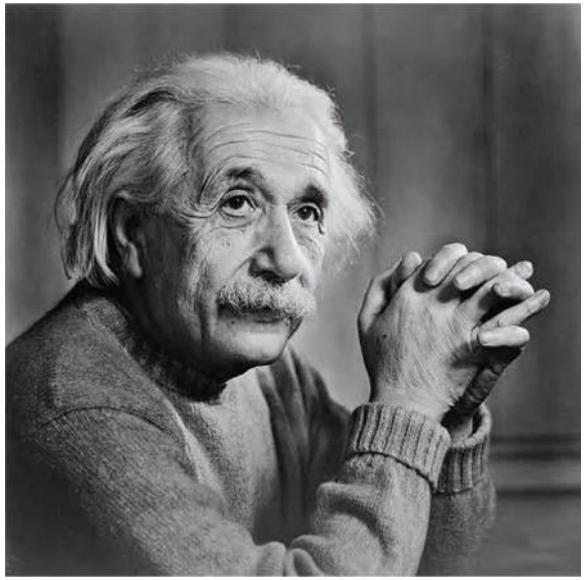
- Johnny Cash

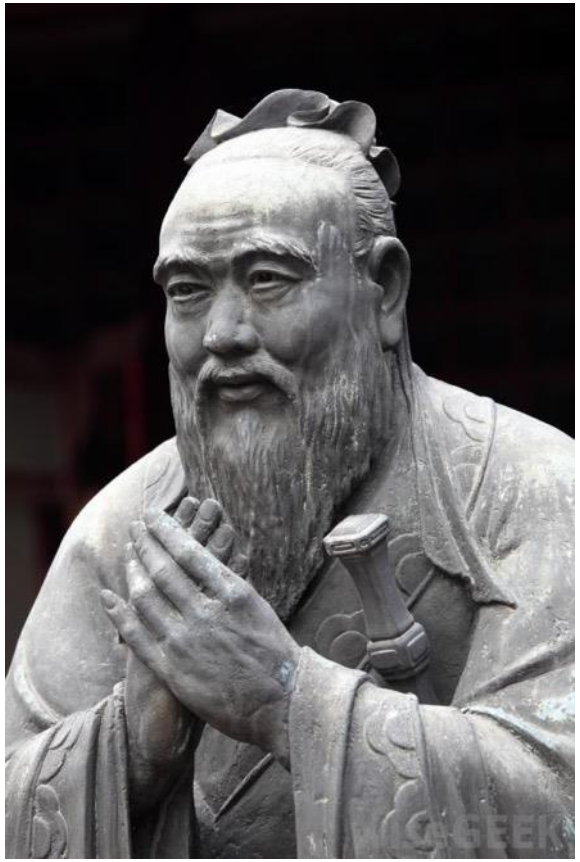
“Success is not final, failure is not fatal: it is the courage to continue that counts.”

- Winston Churchill

“A person who never made a mistake never tried anything new.”

- Albert Einstein





“Our greatest glory is not in never failing, but in rising every time we fail.”

- Confucius

“I thank God for my failures. Maybe not at the time but after some reflection. I never feel like a failure just because something I tried has failed.”

- Dolly Parton

Lessons Learned

- Always Double Check Everything
- If Something Does Not Feel Right, It Probably Isn't
- Never Rely On Just One Access Vector
- Understand/Update Your Tools

"Oh , yes. The past can hurt. But the way I see it, you can either run from it, or learn from it."

- Rafiki
